

BOARD MEETING DATE: January 21, 2025

ITEM NO: X-d

RECOMMEND THAT the District Board of Trustees' approval to seek quotes from fencing contractors for the installation of a fence along portions of the west side of campus along Hamilton Ave.

THIS RECOMMENDATION is initiated at the request of an NFC Board Member in response to several complaints regarding the illegal dumping of debris on college property, particularly on the west side of campus. The college has made attempts to mitigate the issue by posting "No Dumping" signs in December. Unfortunately, these signs were stolen shortly after being installed, which has led to a continued problem. The installation of a fence will act as a physical barrier to prevent access to areas prone to dumping would contribute to maintaining a clean and safe campus environment.

NFC's Department of Campus Safety is prepared to provide any necessary updates at the Board meeting.
